
TRANSACTIONAL WEB APPLICATIONS

PROJECT

-420-951-VA- SECTION-05813

Team Members:

Hazar Snoussi 2203102

Abram Girgis 2195413

Due date:

September 1st, 2022

ASSIGNMENT# 1

1. GitHub

Create a repository for your project on GitHub and check-in your code including database scripts, front-end, and back-end scripts.

The check-in history of each teammate must show their work progress along the project.

GitHub Link: <https://github.com/hazarsnoussi/Transactional-Website-Project>

2. Project Plan

Establish a Kanban for the project in Trello: www.trello.com, or a similar tool.

the Kanban must show the user story, or task, title, description, assigned person, the due date.
